

WRINKLE SOLUTION

WRINKLE SMOOTHING SERUM
ALL SKIN TYPES • 1 FL OZ / 29 ML

Dr. Sevinor's Wrinkle Solution instantly gives aging skin a temporary lift. Within minutes, lines and wrinkles appear smoothed away. This multi-functional, instant gratification formula absorbs quickly and helps to tighten the skin, making it appear lifted and smoother.

DIRECTIONS:

1. Cleanse and **THOROUGHLY DRY** your face.
2. Be sure that there is no other product residue left on your face after cleansing - works best on bare skin.
3. For optimal results, **DO NOT APPLY MOISTURIZER BEFORE OR AFTER APPLICATION OF THE PRODUCT**. If you are intent on using a moisturizer, or if you have very dry skin, then apply a **VERY, VERY THIN LAYER OF A SHEER MOISTURIZER** prior to application. **ALLOW TO DRY COMPLETELY** before applying the product.
4. Shake product tube **VIGOROUSLY** before each use.
5. Squeeze a small amount of product to the back of your hand and then apply gently, with your finger, a **SINGLE, SMALL, THIN**, even coat of product to wrinkled facial areas and sweep upward gently with your finger. **DO NOT RUB**.
6. Stay expressionless for approximately 2 to 3 minutes while the Dr. Sevinor Wrinkle Solution Serum sets and dries.
7. Close the tube **TIGHT** when finished.
8. You may see a dry powder-like residue on the top of the tube - simply wipe with tissue before use of product.
9. For additional information **PLEASE** read **PRODUCT INSERT**.
10. **INSTRUCTIONS IF YOU WANT TO WEAR MAKEUP (FOUNDATION, CONCEALER, POWDER, BLUSH) AFTER APPLYING WRINKLE SOLUTION:**

- There is not one makeup application that fits all skin types. Use a sponge or brush. If using a liquid makeup, squeeze a small amount onto the back of your non-dominant hand, then put makeup on sponge, and apply to face by dabbing and pressing.
- Do not swipe/drag or rub sponge across face. Instead use stippling motion to consistently dab and press makeup on your face to achieve smooth overall coverage.
- Foundation sponges can be used wet or dry.
- If your routine is to wet foundation sponges, then it is essential that you squeeze out all water prior to applying foundation onto the sponge.
- You may want to try putting a pea size amount of Wrinkle Solution and a pea size amount of foundation on the back of your hand, and mix them, and then apply the mixture to your face following the instructions above.
- Every foundation is somewhat different, so you may want to experiment what works best for you!

INGREDIENTS:

Water, Sodium Silicate, Magnesium Aluminum Silicate, Glycerin, Sodium Hyaluronate, Camellia Sinensis Leaf Extract, Caprylyl Glycol, Phenoxyethanol, Hexylene Glycol, Aminobutyric Acid, Sodium Polyaspartate, CI 77492, CI77491, CI77891, CI77499, Xanthan Gum, Sodium Citrate.
